

An illustration of a cave scene. At the top, a small goat with a bell around its neck stands on a wooden beam. Below, a large, dark, bear-like creature with a white collar and a fork in its mouth looks towards the left. The cave walls are textured and decorated with small plants and bones. A red sun is visible in the background.

*Why I write middle-grade:  
"This is the time when kids take control of their own opinions. Middle graders decide what they like—and what they don't—and it has nothing to do with your teacher's preferences or those great voices your mom does when reading aloud. I think that's why so many adults who grew up with my books reach out to me on social media. The choices you make as a middle grader stay with you forever."*

Piper and Kayla love to move. They ride bikes, glide on ice, swoosh down mountains and much more — each in her own way. While Piper pedals her tricycle with her feet, Kayla uses her hands to move her trike forward. While Kayla coasts across the ice on a sled, Piper sails along on skates. Join Kayla and Piper as they play together, explore their world and make new friends.

The inspiration for *I Can, Too!* comes from the author's daughter, who was born with spina bifida. On a visit to the mall after her child received her first wheelchair, a young boy pointed, asking his mother, "Why is that girl in a wheelbarrow?" Karen welcomed questions so the unknown could be named and understood and children could get to know her daughter.

Shining a much-needed spotlight on kids who use special gear to navigate the world, *I Can, Too!* will delight readers of all abilities with its affirming story of inclusion, while also inviting readers to learn more about adaptive devices in the back matter.

Brady was on a hockey team called the Icehogs. He was their leading scorer.

At the end of practice, Coach gathered the Icehogs on center ice. "I have three important things to say," he told them as he counted on his fingers.

"One, next week is our last game of the season. Two, we're playing the dreaded Dragoons. And three, if Brady Brady scores one more goal this season, he'll break the league record."

Brady's teammates all cheered.

# A gripping and unforgettable tale of survival during the Great Famine in Soviet Ukraine.

Ages 8-12

Nyl is just trying to stay alive. Ever since the Soviet dictator, Stalin, started to take control of farms like the one Nyl's family lives on, there is less and less food to go around. On top of bad harvests and a harsh winter, conditions worsen until it's clear the lack of food is not just chance... but a murderous plan leading all the way to Stalin.

Alice has recently arrived from Canada with her father, who is here to work for the Soviets... until they realize that the people suffering the most are all ethnically Ukrainian, like Nyl. Something is very wrong, and Alice is determined to help.

Desperate, Nyl and Alice come up with an audacious plan that could save both of them — and their community. But can they survive long enough to succeed?

## Excerpt from Winterkill:

*By the time we got to our own house, the parade had dissolved. I pushed open our door, grateful to be away from all the drama. “There you are,” said Mama, her face frozen in an artificial grin. She was seated at the table with my nine-year-old brother, Slavko, and eleven-year-old sister, Yulia. My chair and Tato’s were occupied by two strangers. “We have company, all the way from Canada.”*

*A Young Pioneer girl wearing her red devil’s noose around her neck sat at my spot beside Yulia as if it were hers. She had been scribbling something on a form when we walked in. The other visitor was a man sitting beside Slavko, in Tato’s spot. He wore the kind of collared shirt with buttons that Roman, the priest’s son, sometimes wore when he got a package from relatives in America.*

*The sight of them occupying not just our house but our places at the table sent a wave of fury through me. It was bad enough that Stalin had become the dictator of all the republics in the Soviet Union, but now he was starting up his five-year-plan that was supposed to modernize the Soviet Union, but actually hurt people like us. He was taking away our farms and making them into one big collective farm—the kolkhoz. He had already sent in city people ignorant of farming to force the change on us, but now he was sending in foreigners. They couldn’t possibly know the challenges we had. Every single day since Stalin’s push had begun last year, friends and neighbors had been bullied and forced into giving up their property and joining the kolkhoz. But why Canadians?*

### Winterkill

by Marsha Forchuk Skrypuch   
Sep 06, 2022 Paperback , Trade \$9.99 CAD

Ukrainian Canadian author Marsha Forchuk Skrypuch tells a gripping story of how the Soviet Union starved the Ukrainian people in the 1930s -- and of their determination to overcome.

Nyl is just trying to stay alive. Ever since the Soviet dictator, Stalin, started to take control of farms like the one Nyl's family lives on, there is less and less food to go around. On top of bad harvests and a harsh winter, conditions worsen until it's clear the lack of food is not just chance... but a murderous plan leading all the way to Stalin.

Desperate, Nyl and Alice come up with an audacious plan that could save both of them -- and their community. But can they survive long enough to succeed?

Known as the Holodomor, or death by starvation, Ukraine's Famine-Genocide in the 1930s was deliberately caused by the Soviets to erase the Ukrainian people and culture. Marsha Forchuk Skrypuch brings this lesser-known, but deeply resonant, historical world to life in a story about unity, perseverance, and the irrepressible

## Excerpt from *Honey and Me*:

*On a sunny Shabbat morning in late summer, I leave the house by myself and head for synagogue. The sky is blue, the trees are green in that August kind of way, and bees are humming as I skip along the sidewalk that traces our neighborhood park. Beginning at the fence of my best friend Honey Wine's backyard, the park stretches all the way to the synagogue parking lot on the other. When I reach the stairs that lead to the main entrance, I stop and smooth down my dress. The steps suddenly seem so high, the tall doors with stained glass windows imposing. Even though I've come to our shul almost every Saturday of my life, it feels different coming on my own. But I'm eleven, starting sixth grade, and besides, Honey has been traipsing through the neighborhood by herself since last year. I square my shoulders, climb the steps and push open the heavy doors into the cool lobby.*

**Fans of Judy Blume, *The Vanderbeekers of 141st Street*, and *The Penderwicks* will love this funny, charismatic story of a Jewish girl striving to forge her own identity in the shadow of her fearless best friend. Winner of the Sydney Taylor Manuscript Award!**

To Milla Bloom everything seems easy for her best friend, Honey Wine. Milla envies Honey's confidence, her charm, and her big, chaotic, loving family — especially when they provide a welcome escape from Milla's small family and their silent house. The two friends do everything and go everywhere together. So when Honey joins Milla's school for sixth grade, why is it not as great as Milla expected? Will she ever find the courage to step out of Honey's shadow and into her own spotlight? Set in a modern Orthodox Jewish community in an American suburb, *Honey and Me* follows Milla and Honey through the course of sixth grade, and the holidays of the Jewish calendar, as they encounter dramas large and small: delivering meals to their unpredictable elderly neighbor, trying to impress the most popular teacher, accidentally choosing the same topic for their school's public speaking contest, going to their first bat mitzvahs and studying for their own, and so much more. When tragedy strikes close, Milla must learn to define her own strengths and find confidence. Her relatable struggle — filled with honest and tender observations — comes together to form a classic coming-of-age story that is funny, wise, and authentic.

## Excerpt from *How to Be a Goldfish*:

*I bet there aren't many kids who can say social studies changed their life, but it changed mine. It really did. If it wasn't for social studies, Harry's farm would be history, and I would have never figured out who David was. He'd be just some city kid who passed through Scotch Gully one day in May.*

*It was the last period and I was busting for school to be over so I could get outside. The grass was thick and green; the gullies, those hillside ditches that gave our town its name, were still fat with spring runoff; the sky was blue and cloudless; and at Harry's, the ewes were due to lamb any day. Harry was the closest thing I had to a grandfather and great as he was, to him, I was still a kid. So, when he said I could name the first lamb born, I knew he expected a cute little-kid name like Curly, Fluffy, or Snowflake, but I had my own ideas. For a ewe lamb, I'd narrowed it down to Baa-rbra, or Tina Baa-lerina. Harry wouldn't get it, but I thought it was hilarious. I grinned, just thinking about the look on his face when I told him.*

*That grin disappeared when I walked into social studies and saw the maps pulled down and covering both sides of the chalkboard. Those maps rolled down like that meant we were about to have a pop quiz. By the time I took my seat, kids were buzzing like a nest of angry yellow jackets.*

Nine-year-old Anna has always been the clumsy one in the family. Somehow she can never do anything right. She bumps into tables, and she can't read the blackboard at her school. Her perfect brothers and sisters call her "Awkward Anna."

When Papa announces that the family is moving from Germany to Canada — after the disappearance of some Jewish neighbours he can see what the Nazis' rise to power will bring — Anna's heart sinks. How can she learn English when she can't even read German properly?

But when the Soldens arrive in Canada, Anna learns that there is a reason for her clumsiness. And suddenly, wonderfully, her whole world begins to change. Especially when her new friends in a special class at school help her stand up to some bullies who call her names.

A truly heartwarming story of an underdog who prevails; it is impossible not to cheer for prickly, determined, wonderful Anna.

Scholastic Canada Biography

**Meet J. Armand Bombardier (Scholastic Canada Biography)**

By (author) Elizabeth MacLeod 🍁, Illustrated by Mike Deas 🍁

Sep 06, 2022 | Hardcover, Picture book, Paper over boards | \$18.99

**Meet Joseph-Armand Bombardier – Canadian inventor, innovator and entrepreneur!**

Born in 1907, Joseph-Armand grew up in Valcourt, a small village in Quebec. Like many places in rural and Northern Canada, it was often cut off from the world after winter snows made the roads impassable. When Armand was a kid, he was already inventing his own toys, including his first attempt at a vehicle that could drive through snow. As an adult, the passion to invent a snow machine became a serious ambition after his 2-year-old son died from appendicitis. It was winter and they could not get him to the hospital.

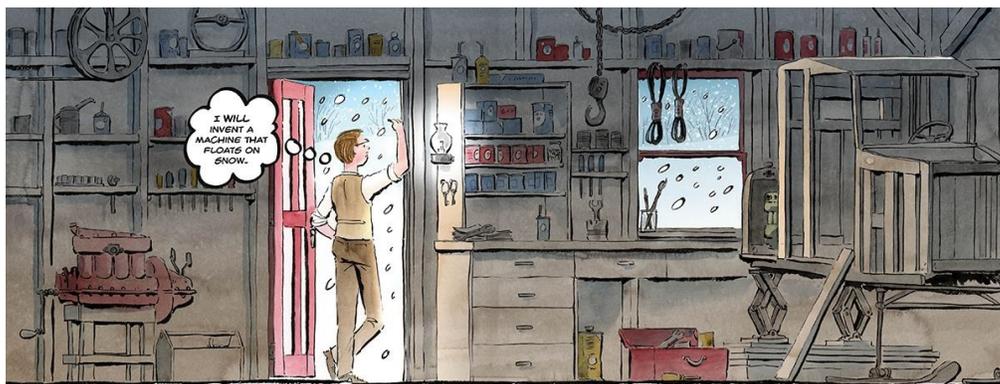

Armand persisted even after many failures – until he did it! His B7 snow machine was used to deliver milk and mail... and it saved lives. But Armand didn't stop there! He continued to invent and innovate his whole life, making contributions to the war effort and developing machines like the Muskeg tractor and the famous Ski-doo. His inventions revolutionized the way people live and work.

The award-winning Scholastic Canada Biography series highlights the lives of remarkable Canadians whose achievements have inspired and changed the lives of those who followed.

Joseph-Armand Bombardier threw down his wrench in frustration. His latest attempt at inventing a system to help wheels grip the snow had failed. For years Armand had tried to invent a vehicle that could transport people on even the snowiest of days. He'd created machine after machine.

2

With every one, Armand made improvements and invented new parts. Each vehicle was a little better than the last. But none of them worked reliably. Armand shook off the frustration and got back to work. He knew his snow machine could save lives.
